

## COVID-19 Cleaning, Disinfecting, and Protecting Protocol

**Clean** frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, sinks, etc.

**Disinfect** surfaces by killing viruses & bacteria on all surfaces.

**Protect** surfaces to inhibit the growth of harmful bacteria.

### INSTRUCTIONS

Remove any loose debris and where applicable, wipe surface with damp rag.

#### 1 CLEAN

Using **bluwatr Nanomite All-Purpose Cleaner**:

- Hold sprayer about eight inches from surface to be cleaned.
- Spray on and wipe it off! On extremely dirty surfaces, allow to penetrate and leave on surface for 2-3 minutes. Apply second spray if needed, and wipe.
- Wipe surface with clean, damp sponge or cloth.
- For removal of built-up, caked on grime, or for best results when cleaning rough irregular surfaces, spray on, agitate with brush, rinse and wipe.

#### 2 DISINFECT

Using **bluwatr Beyond Green Multi-Surface Disinfectant & Cleaner** exhibits effective virucidal activity against Coronavirus and SARS:

- Apply solution with a cloth, sponge, or hand pump trigger sprayer to wet all surfaces thoroughly. Allow the surface to remain wet for 1 minute.
- Wipe & Let dry

#### 3 PROTECT

Using **bluwatr BioShield 75**:

- Holding the trigger sprayer 4"-6" from the surface, coat the entire area making sure the surface is completely covered.
- Let stand until dry (5-10 minutes)
